PainAid Chat Room Registration Instructions

<http://painaid.painfoundation.org/>

- 1) Click on *Please Register* (**NOTE: If you are not certain as to whether you have Java installed on your computer, please click the Java link on the Chat Intro page and do that first.**)
- 2) Type in your Desired Member Name (User Name), real name, and email address and press *Register Me* (see Screenshot 1 below). Confirmation screen will appear telling you to go to your email. Close the browser.
- 3) Go to your email and look for an email from do-not-reply@parachat.com. The subject line will be "Your Member Activation" (see Screenshot 2 below).
- 4) Follow the link on the Member Activation Email and click on *Click to Activate*. Confirmation screen will appear telling you to go to your email. Close the browser.
- 5) Go to your email and look for an email from do-not-reply@parachat.com. The subject line will be "Member Name Activation Successful" (see Screenshot 3 below). Note your Member Name and Password.
- 6) Go back to the Chat Intro page and choose a Chat Room (most will take place in Chat Room ONE). Log in using the member name and password from the email (**password is case sensitive**).
- 7) To change your password later, go to the registration screen and click on *Log in to change settings* in order to make the change. You will get an email notifying you of the change.

Chat Registration

Screenshot 1: Users who click the registration link will go to the member registration page. Each user must input their desired member name, real name and valid email address.

Subject: Your member activation

Dear test me:

The process of registering your member name is almost completed. To activate your member name, you must click the link below:

<http://reg.parachat.com/en/main/index.php?s=0&server=proscgroup=parachat&img=http://www.parachat.com/images/blank.gif&url=http://direct.parachat.com/mdb.html&act=reg&code=activate&email=george@blacklab.net&auth=155256686424092bee8be6>

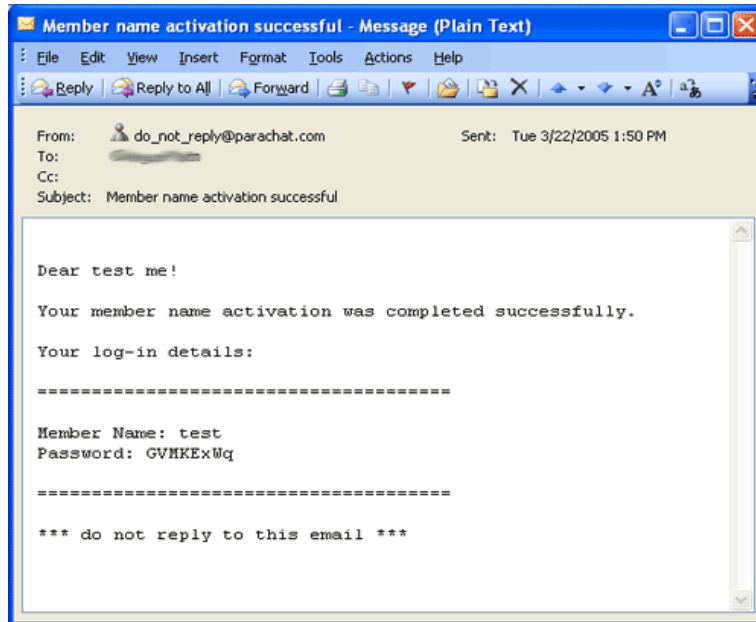

If the link above appears incomplete, or partially clickable, you must copy the entire link and paste it into your web browser's address bar to successfully activate your member name.

Email: [redacted]

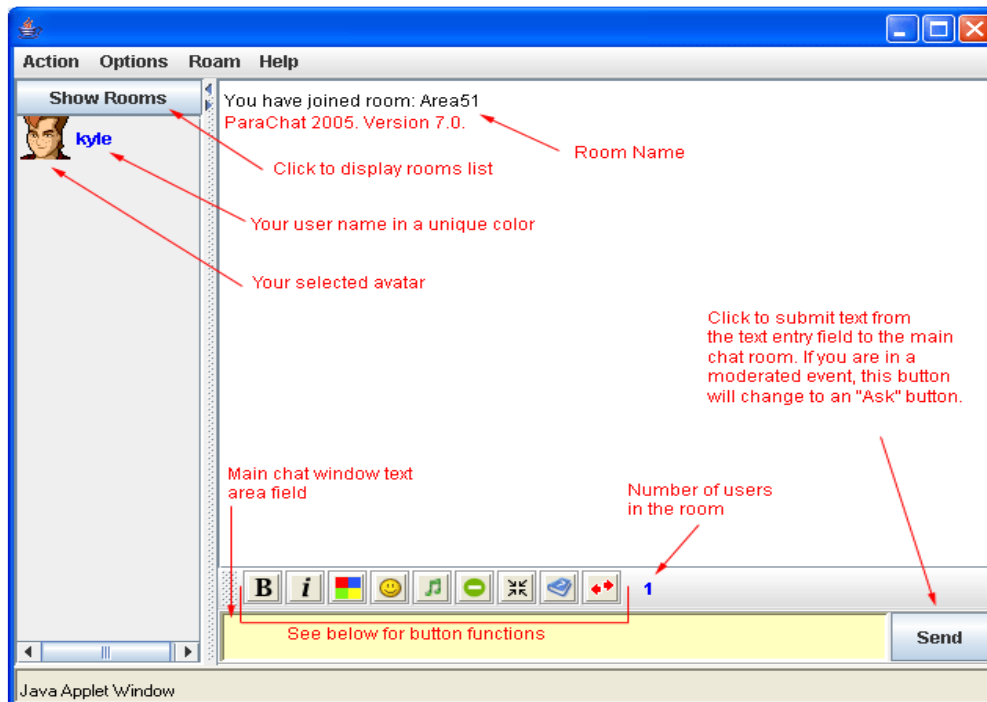

Code : 155256686424092bee8be6

*** do not reply to this email ***

Screenshot 3: Once the validation process is completed, each user will receive a subsequent email that confirms their successful registration. The registration confirmation email contains the member name they selected and a password that have been assigned to them. A user may change their password by using the "Log-in to change settings" option on the main registration page. Please note that the system will update changed passwords every 5 minutes.

Chat Room Preview
